Dear Monte McCall,

Apparently somebody doesn't like me. I spoke with my wife on the phone yesterday. Something was wrong I could just tell. When you're around someone for 20 years you kind of know these things. I pressed her and she told me the police were there (SAT). She called them because somebody cut my 8x8 FT sign down that was a Business sign. Now I'm really starting to wonder what next. My wife has received threatening phone calls also. People just don't like to hear the truth. I'm very afraid for my wife and son and grand daughter. My wife told me the police said they would look into it. But I wonder? I don't know whom to turn or what to do. She won't move away from there because that's where she grew up. The house is very old. It used to belong to her Grandmother. We had the property up for sale with a real estate company, but I think it's out of their hands now. I've tried to get my wife to re list it with another real estate. So far to no avail. She is lost without me or I am without her. We were meant for each other. We have A TRUE love story. I just don't know what to do. We have a dingee which goes off everytime something or somebody goes by it. Last night she couldn't sleep because it kept going off. You could imagine how she must of felt. Sometimes when the wind blows real hard it rings alot. But even still I'm very concerned for their safety.

I asked her to send me Ashe County's Sheriff's office address so I could write Sheriff James Williams and ask that he patrol our area more. People have no idea who the Hudlers are. I do. I worked for Mr. Hudler (Ron) for 9 years. Ron is a very, very, very, wealthy person. It wouldn't surprise me if he wasn't worth a billion dollars. No joke. With that kind of money people can do a lot of things. I was told by a guard a few weeks back that there is a hit on me. Don't know how true that is. Myself I'm not worried about. It's the people around me who concern me. I don't know if someone is trying to scare my wife off or if someone wants to hurt her or my family. I just don't know what to do. Why I wrote you this, I really don't know. Maybe in some way in the back of my mind you could help? I just don't know. All I know is I was head to the pen and now I'm writing. Maybe it would ease my mind knowing if something ever did happen "Bad" that you might could shed the light on the matter? I'm sure we will be in touch again soon.

Thanks  
Juddie P.
